Interest incurred from the deposit shall belong to the Lessee; except the case that the Lessee breaches any of the agreement causing any losses or damages to the Mutual Fund. The Mutual Fund has the right to deduct damage compensation and the due- and past-due lease fees from the lease deposit. Furthermore, the Lessee has to make additional deposit in compliance with the amount stated in the agreement within 10 days since the date notified by the Mutual fund.

b. Letter of guarantee issues by commercial bank to secure the lease fee payment and/or compensation and/or any payment which the Lessee fails to pay by the due date to the Mutual Fund during first five years. Guaranteed amount is equivalent to half of one-year lease fee.

In this regard, the lessee agrees to oppose or raise any defense against the Property Fund in exercising the right to enforce such Letter of Guarantee. However, such action shall not disqualify the Property Fund from claiming from the lessee

	<p>or extract from the deposit for the payment of outstanding rental and/or damages and/or any money owed by the lessee to the Property Fund as the Property Fund deems appropriate.</p> <ol style="list-style-type: none"> 3. Payment of rent and any money under this agreement by check, any other instruments or bills shall be considered a complete payment only when the Property Fund is able to cash the payment from such check, instrument or bills. 4. The lessee agrees to pay the said rental by means and place mutually agreed upon by the parties. 5. In the event that the lessee is unable to pay the fixed rental at the monthly rate stipulated in the attachment of this agreement, the lessee agrees to allow the property fund to charge a penalty for late payment at the rate of 7.5% per year of the outstanding rent from the due date until the Property Fund has received full payment of the outstanding rent, unless otherwise agreed by the parties.
<p>Rights and Duties of the Lessee</p>	<ol style="list-style-type: none"> 1. The Lessee has the right to utilize the Property to Lease commercially by operating warehouse and document storage and other related business; and the Lessee agrees not to alter the usage of the Property to Lease except that the Lessee obtains a written consent from the Mutual Fund. 2. The Lessee has the right to construct any structures or any fixtures, or modify or alter the Property to Lease in material respects, in whole or in part, according to the purpose of the lease agreement; provided that the Lessee shall obtain the Mutual Fund’s written consent. The Mutual Fund shall give or not give such consent in due time. Those additional structures, fixtures, modifications or alterations and constructions shall belong to the Mutual Fund. <p>In the event that such structures, constructions, fixtures, modifications or alterations cause damages to any person, the Mutual Fund, or the Management Company, or building, or violate applicable laws, rules, regulations or ordinances of the relevant authorities, the Lessee shall be held solely liable for compensating such damages.</p>

3. The Lessee shall maintain and take care of area surrounded and within the Property to Lease under orderly condition and shall not conduct any activities that disturb other people's tranquility or prevent authorized officers from performing legally actions. The Lessee shall not conduct any business, trading, or other transaction, which is harmful or illegal to the Property to Lease, neither by the Lessee itself or by assigning any other party to conduct such transactions. The Lessee shall not perform such act which is against social tranquility and morality.
4. The Lessee shall arrange the examination of the Property to Lease by the Mutual Fund or its representative. The Mutual Fund shall notice to the Lessee in writing in due time before conducting such examination. In case that the Mutual Fund has a necessarily urgent reason, the Mutual Fund or its representative could examine the Property to Lease immediately.
5. The Lessee shall act in accordance with law and other relevant regulations pursuant to the Property to Lease which including but not limited to taxation law and environmental law.
6. The Lessee has an obligation to notify the Mutual Fund in writing, without delay, in case that the Lessee is aware of any information or event which possibly impact the Property to Lease materially under this lease agreement, or any event that impact directly to the Lessee's operating business or financial status, impacting the ability of the Parties to fulfill duties and obligations under the lease agreement.
7. During the Lease Term, the Lessee shall procure benefit from such Property to Lease and/or shall appoint a qualified property manager. In the case that the Lessee appoints an external property manager, the Lessee shall receive written consent from the Mutual Fund on such appointment in due time.
8. Throughout the Lease Term, the Lessee agrees to maintain the Property to Lease under normal usable condition at all time. Expenses incurred from performing such duties shall be borne to the Lessee.

Insurance

Throughout the Lease Term under the lease agreement, the Mutual Fund and the Lessee agree that the Lessee shall procure the following sufficient and appropriate insurances against the Mutual Fund's stake in the Property to Lease, as determined by the Mutual Fund. The duty to pay the premium is owned by the tenant. The Mutual Fund and/or the tenant are the insurer and the Mutual Fund shall be the beneficiary of the insurance claims. In addition, the parties agree on the action when the leased property is damaged as follows:

1. In the event that the leased property is damaged by some casualties

- a. The lessee is responsible for repairing the leased property to be in normal working condition, as soon as possible. The repair costs shall be borne by the tenants but it can be disbursed with the property fund when the property fund has received compensation from the insurance company. The requested amount for withdrawal must not exceed the amount of compensation received by the property fund under the insurance policy. In the event that the repair costs exceed the amount of the compensation, the lessee will be responsible for the excess.
- b. During the repair of the leased property, the property fund shall receive the indemnity under the business interruption policy.
- c. In case of rental property is partially damaged by casualties, it shall not constitute a reason for the termination of the lease agreement.

In this regard, there will be no extension of the rental period, in the event that the leased property is partially damaged and needs to be reconstructed and repaired.

However, the Property Fund may consider adjusting the rental fee during the period of partial casualty damage and the time required to mitigate the damage to return to normal condition in proportion to the damage that occurs.

	<p>2. In the event that the leased property is fully or partially damaged by casualty, which is material and making the lessee unable to use the leased property (and the condition of the leased property cannot be repaired or reconstructed), the lease agreement shall be terminated.</p> <p style="padding-left: 40px;">In this regard, part or all of the damage caused by the casualty, which is material refers to the case that the lessee is unable to utilize the leased property as a result of force majeure.</p>
<p>Maintenance of the Property to Lease</p>	<p>The Lessee has obligation to maintain, repair, and modify the Property to Lease to be in good condition in which the Property to Lease should be well-maintained and suitable for usage under the purposes specified in the lease agreement; given that, the maintenance cost shall be borne to the Lessee.</p> <p>If the tenant does not perform such duties, the Mutual Fund can do that instead the tenant and Lessor has right to claim any related damages from the tenant.</p>
<p>Event of Default and Termination Event</p>	<p>Aside from the condition stated in the lease agreement, any events contained herewith shall be reasonably used as the event of default or event to terminate the lease agreement, as the case may be, as follows:</p> <p><u>Event of Default</u></p> <p>1. Either party fails to comply with the agreement or breaches the warranty as detailed in this agreement, unless it is a force majeure event.</p> <p>For the benefit of this agreement the "force majeure" means an event beyond control, which shall include any causes that would happen, bring disaster, cannot be prevented, affect the leased property directly or in the immediate vicinity of the location of the leased property, which the affected party cannot control, although the reasonable precautions which may be expected from such persons have been taken, such as fires, floods, earthquakes or legal consequences, which significantly affects the document warehouse business of the lessee, making lessee unable to utilize the leased property for more than 50% of the total building area for a period that the property fund or</p>

engineering specialist appointed by the property fund and the lessee as an advisor consider and see that the impact of the damage causes the lessee to be unable to operate the business according to its objectives for more than 180 days and resulted in the decrease of revenue of the Sub Sri Thai Smart Storage project by more than 20% as compared to the same period of the previous year.

However, the aforementioned force majeure does not include the factor arising from the economic and political situation.

2. Lessee undergoes the bankruptcy process or rehabilitation process under governing laws or is in the process of dissolution of the company, liquidation or requesting the rehabilitation of the tenant to the court or any government agencies, so the Mutual Fund find that there is an impact on the Lessee abilities to liquidate or follow the agreement
3. In case the Lessee ceases business operation whether in full or in part, affecting the Mutual Fund's procuring benefits from the Property to Lease significantly or the new Lessee is unable to procure benefits from the Property to lease
4. In case the Mutual Fund breach or disobey the agreement or not to comply in terms of the essential duties of the Mutual Fund specified in the lease agreement and the Mutual Fund could not rectify in accordance to the agreement within 30 days unless force majeure occurs.

Event to Terminate

1. If the events of default in the above Article 1 to 3 occur or the Lessee fails to comply with the law or to perform any process with government sector; provided that, such event could not be able to comply or correct within 30 days since the date received notification in writing, the Lessor is able to cancel this agreement, except force majeure.
2. If the event of default in the above Article 4 occurs, and the Mutual Fund fails to comply or correct within 30 days since the date received notification in writing or in any period that the Parties agree, the Lessee has the right to cancel this agreement, except force majeure.

	<p>3. If any of the following events occurs, the Parties agree to terminate this lease agreement forthwith.</p> <ul style="list-style-type: none"> (a) The lease term has expired without extension (b) The Parties jointly agree, by their own free will, to terminate this lease agreement. (c) The leased properties may be expropriated under the expropriation notice/law or others, and the Fund sees that such incident materially affects the project operations as it is irremediable or impossible to ameliorate such adverse effect on the project operations.
<p>Effects of default or consequences of termination of agreement</p>	<p>In the event of breach of the agreement as specified above, the parties agree to take the following actions:</p> <ul style="list-style-type: none"> 1. In the event of the termination of the lease agreement as specified in Clause 1 or Clause 2 above, the non-defaulting party may terminate this agreement by giving prior written notice to the other party not less than 30 days in advance and the non-defaulting party has the right to claim damages as specified by law from the defaulting party too. When the right to terminate the agreement under paragraph 1 is exercised, the parties agree on the damages as follows: <ul style="list-style-type: none"> (a) In the event that the property fund exercises the right to terminate the contract due to breach of contract by the lessee, the property fund is entitled to claim damages equal to the amount of the remaining rent throughout the entire lease period. (b) The damages under (A) may be reduced; the lessee may proceed to find a new lessee to operate on the leased property within the period from the termination date of the contract to the expiration of the lease period. If the new lessee enters into an agreement with the property fund and the remuneration received under the agreement is lower than the damages that the property fund should

have received, the lessee agrees to indemnify the difference between the damages that the Property Fund should receive, less the remuneration which the new lessee agrees to pay to the Property Fund.

(c) For the payment of damages under (A) and/or (B), the Property Fund agrees that the lessee will continue to pay according to the payment period under this agreement. The payment of damages in each installment must be at the amount not less than the fixed rent in such period until reaching the amount of actually payable damages.

2. In the event that the lease agreement is terminated as specified in Clause 3 of the termination of the lease agreement above, it shall be deemed that the agreement is terminated, and each party has no right to claim for damages, expenses or money or any other benefits from the other party. However, the property fund is entitled to claim the rent due and outstanding accrued prior to the termination of the lease, with interest (if any).
3. If either party fails to make any payment to the other party under this agreement, the non-defaulting party is entitled to charge a penalty of 7.5% per annum of the outstanding debt until payment is settled.
4. In the event that the party has exercised the right to terminate the contract under any conditions specified in the event of default or the event of termination under this contract, the lessee remains obligated under this agreement and is able to make use of the leased property until the expiration of the period specified in the notice.
5. When this lease agreement is terminated without renewal for any reason, the lessee agrees to return the leased property to the property fund in the condition of the leased property at that time as it has been

maintained as specified in this agreement; and agree to act and/or cooperate, including any action, so that the property fund can use the leased property to seek benefits, or to allow the personnel of the property fund to possess the leased property and to use the leased property to seek benefits in accordance with the objectives of the property fund under the fund management project of the property fund and can operate the project continuously according to the law and/or as required by other related agencies. In this regard, the lessee is responsible for coordinating, cooperating and taking any action as mentioned above for a period of 1 year from the termination of this lease agreement. The lessee agrees to send a notice to every customer who keeps the document with the lessee within 7 working days from the termination of this lease agreement. The lessee shall clarify that the lessee no longer has possession rights on the leased property due to the termination of the lease agreement and the document deposit service will be carried out by the property fund or the person designated by the property fund. In this regard, if the customer agrees to continue to use the document deposit service at the leased property, the lessee agrees to transfer the rights and deposit (if any) or issue a cancellation letter with a refund of deposit (if any) under the document deposit contract, or any service contract that the tenant enters into with such customer within 30 days from the day that the customer agrees to use the document deposit service at the leased property further.

In the event that this lease agreement is terminated as a result of all casualty damages, the lessee and the property fund will use their best efforts to mitigate the impact of such damage.

Taxes, fees, and expenses	The Lessee agrees to be responsible for paying land and building taxes, including other taxes possibly charged by governmental authorities as a result of or in connection with the use of the Property to Lease during the period of the lease agreement.

(3) Opinions of the REIT manager on the tenant's ability to comply with the lease agreement

The REIT manager commented that the tenant has had the executives and a team experienced, expert in specialized document storage management. It is also necessary to rely on the reputation and experience accumulated for a long time together with service and expertise in document storage management to be able to provide document storage business service fully and reliably for document-depositing customers like Sub Sri Thai Plc. has operated with a Standard of Operation to continually seek the benefits from real estate in the long run. Furthermore, the tenant is the original owner of Sub Sri Thai Smart Storage Project since before SSTSS' investment in such property and SSTSS has been converted into the REIT. Therefore, the tenant is expert in property management of Sub Sri Thai Smart Storage Project well.

Throughout the period since the establishment of SSTRT and rental of Sub Sri Thai Smart Storage Project from SSTRT, the tenant has still performed the duties as specified by the lease agreement in all respects.

In case of the tenant' inability to comply with the lease agreement, the REIT has measures to take action in the following cases.

- In case of the tenant's violation or non-compliance with the agreement in essence as specified in the lease agreement and the agreement relating to the seeking of benefits of the REIT and inability to rectify such breach within the period specified in the agreements, the REIT is entitled to terminate the contract and/or claim damages from the tenant.
- In case of the tenant's failure to pay the rent payable to the REIT as specified in the lease, REIT has the right to take action under the lease agreement as follows.
 - a) The REIT is entitled to charge a fine of 7.5 percent of the amount of that outstanding debt until payment will be completed.
 - b) The REIT is entitled to deduct the deposit (as specified in the property lease Agreement) in the amount equal to that unpaid rent until the full amount to pay the rent. The tenant is obliged to bring additional money to the full amount according to deductions for such purpose within 10 days from the date of the tenant receiving notice of deducting the deposit from REIT for the full amount of the deposit as specified in the lease within the period and conditions fixed by the lease agreement. In case of the tenant's failure to bring additional money for the original full amount of the deposit within the

period specified in the lease agreement, the REIT can use the right to immediately terminate this contract or

- c) The REIT has the right to require the bank who issued letter of guarantee to pay the unpaid rent to REIT under the terms of the letter of guarantee. The REIT will give written notice to the tenant 7 days before exercising the right to enforce that letter of guarantee

However, in the event that the tenant is unable to comply with the property lease agreement. The REIT has measures to implement Divided into the following cases

2.5.4 Relationship of the Lessor of the Main Property of the REIT with the REIT Manager

Consider in accordance with Clause 2.3 of Part 2 of this registration statement.

Opinion of the REIT Manager regarding the rental fee determination and the lease conditions

The company considers the reasonableness of the rental rate by considering the market rental rate when calculating to compare the rental fee according to the 2020 property lease agreement, the total amount of 115.38 million baht that the average rental fee per square meter which the REIT receives is approximately 114 baht / sq m. / month. (Area of leased building of warehouse No. 31, 47-49, size approximately 7,832 sq m, and installation area of steel floor, approximately 38,049 sq m. and leased area for automated document storage building (warehouse No. 52) of 1,445 sq m total rental area 47,326 sq m. and rental space document warehouse No. 26-30, 45, 46, 50, 51, size approximately 15,340 sq m. and an installation steel floor area of approximately 21,459 square meters). Rent in the market As illustrated in the summary table of warehouse / factory rental rates below, it can be seen that the rental rate per square meter received by the REIT is in the range of 115 - 125 baht / sq m. At the rate obtained from the market survey Therefore, the REIT Manager Therefore, the said rental rate is reasonable compared to the market rate and is in accordance with the normal commercial practice for renting document storage space. Since Sub Sri Thai Smart Storage Project is an automated document warehouse rental area, which is controlled by an automated system with a barcode and computer system for storage and search. With intelligent system Able to analyze the storage area in three dimensions (3D), resulting in a higher rental price than Sub Sri Thai Project. Therefore, the said rental rate is reasonable compared to the market rate and is in accordance with the normal commercial practice for renting document storage space.

Therefore, the company, as the REIT manager, has considered that Property removal to Sub Sri Thai Public Company Limited, charter and terms of lease agreement It is normal trade (arm's length transaction).

2.6 Borrowing money

The conversion of SSTSS into the REIT as mentioned above involved various expenses for such operation. Besides, it was necessary to bring cash in exchange for assets and encumbrances from SSTSS along with the trust units. Therefore, the REIT has borrowed money from financial institutions to manage the liquidity of the REIT and for the benefit of trust unitholders. The REIT has considered that the procurement of funds for such purpose from the Cost of Debt is lower than the Cost of Equity. At the same time, the interest rate received by the REIT from borrowing money is still close to the loan rate of good customers offered by most domestic commercial banks to their customers in similar businesses and under similar conditions.

2.6.2 Statust of the REIT's Borrowing as of 31 December 2020

Amount ⁴⁾ (Baht)	Total Asset Value of the REIT (Baht)	Ratio of the Borrowing to Total Asset Value of the REIT (%)
240,000,000.00	1,553,192,408.10	15.45

Note ⁴⁾ Excluding loans from Sub Sri Thai Public Company Limited in the amount of 11,000,000 baht (one time) on 20 January 2020.

During the year 2020 the debt has been paid off the said loan account.

In this regard, the REIT has complied with the terms and conditions of the loan agreement as mentioned above.

2.6.3 Aside reserves to pay off loan debt

The REIT intends to set aside reserves to repay loans from financial institutions for a period of 7 years from 2021 to 2027, or until the debt repayment is complete or until there is another method for managing such debt. The reserve amount is as follows

ปี	Amount of reserve each year (baht)	Accumulated reserve amount ⁵⁾ (Baht)
2021	34,000,000	34,000,000
2022	34,000,000	68,000,000

2027	35,000,000	240,000,000

Note ⁵⁾ The REIT may be able to repay the loan principal early. As a result, the REIT will make a decrease in interest on the remaining loan principal. And makes the debt repayment of such loan faster Rather, it is a reduction of the principal loan that will be paid in the final installment under the loan agreement with a financial institution.

3. Overview for industry of the Invested Properties

3.1 Industry conditions warehouse service of business in Thailand

The coronavirus (COVID-19) outbreak has resulted in the Thai economy in 2020 tending to contract strongly from the previous year. Headline inflation is negative. The Monetary Policy Committee (MPC) revised its forecast for 2020 and 2021 GDP figures, with a view to a less negative 2020 to -6.6% due to better-than-expected recovery of private consumption and investment in 2021. The recovery will be slower, with GDP + 3.2% expected, from + 3.6% previously seen, on the less likely-than-expected number of tourists. And there is high uncertainty over the spread of COVID-19.

Warehouse in general : The trend is sluggish to stabilize. Although the demand for rental space will continue to expand in line with the investment of the industrial, agricultural and trade / service sectors in the country. (Especially e-commerce business), the expansion of warehouse space that continues to increase. May result in warehouse business in some areas with oversupply. The price competition is expected to intensify and the rent hikes are still difficult.

Relocation of production bases to Thailand by foreign investors Especially Japan-China The effects of the trade war And the continual growth trend of e-commerce business, with the Thai E-Commerce Entrepreneurs Association estimates that the E-Commerce market will grow 10 times from the present, which is 1-2% of the retail value. This will encourage more space to stock up on raw materials / products before delivery.

Document storage : The trend of the demand for document storage services continues to grow. Since the government still maintains a policy of keeping accounting documents as paper. There is a slight increase in the trend for revenue recognition. Due to the continuous registration of new companies At the same time, the number of service providers did not increase with the supply of the market. As the cost of land in Bangkok and its vicinity increased, the operating cost of the document warehouse business increased accordingly. Including the need to have expertise in the management of specialized archives. Causing new competitors to enter the document warehouse business is quite limited

3.2 Marketing Policy and Competition of the REIT Project

The document storage service business has a high barrier to entry, because it requires expertise in the document storage management and timeliness in recalling certain documents from the storages. The advantages in space area to be used as a document storage warehouse resulting in increasing in price competition. Moreover, competitors provide services in a new way that replace document storage service by document scanning services to store documents in electronic form and cloud storages which provide services using online media. Such services accelerate the shredding schedules for physical documents or eliminate the need to physically maintain documents in the first place. Competitors in the document storage service business include Iron Mountain (Thailand) Co., Ltd., Krungdhep Document Co., Ltd., and JWD Info Logistics PCL group companies.

From the competitive conditions in the industry, the management of of Sub Sri Thai Plc. has develop their services continuously by bringing modern storage systems with large document storage centers. There is a ventilation system in document storage warehouse. There are strong and durable finished steel shelves to store documents for convenience and keep the document boxes in good condition and there is AS / RS automatic document warehouse system that uses the advanced technology in Asia, which is the first and only in Thailand for document storage services. There is a computerized storage control system with barcode codes that can search documents quickly and accurately As well as having expert staff in packing and making various services. In addition, there is a service to deliver documents for checking rapidly.

Moreover, providing efficient services, Sub Sri Thai Plc also places importance on documents which are confidential documents for each depositor by providing security control systems to prevent data leakage. There are modern and effective fire protection systems. There are 24-hour security guards and CCTV monitoring, system for check-in and check-out in document storage area, installed alarm equipment including the infrared light detection system in the building, installed smoke detectors system, heat detector system, fire extinguisher throughout all areas of the document storage center. There is a water pipeline and automatic fire pump for fire fighting with regular checking and testing. There is also pest control to prevent termites and various insects. At present, the document storage service has been certified with the quality standard ISO 9001: 2015 as well as emphasize on customer relations by meeting customers closely before and after the sale to inquire about the needs and satisfaction of customers in order to solve problems continually.

4. Risk Factors

4.1 Risks related to investment in real estate of the REIT

4.1.1 Risk from the changes in document storage method

According to the development in technology continuously, makes the current cost of storing documents in electronic form a relatively cheaper service. Therefore, many companies can conveniently store documents in the form of electronic media. It is also easier to store and search than storing documents in physical storage. If the document depositors increasingly switch to use electronic media for store documents, it can cause reduce the demand of physical documents storage in and the tenant under the lease agreement may affect from operating results which may affect the ability to pay the rent and will directly affect the performance of the REIT.

However, document storage services are still in demand in Thailand, as companies' policies, such as those of financial institutions, require original physical documents to be maintained, including accounting, financial, legal, and other types of documents that are important when it comes to legal significance, taxations, and search and compliance purposes as required by law. Therefore, the majority of business operators tend to store their documents at least 5-10 years depending on the company policies before it is time for shredding. Although the Electronic Transactions Act, B.E. 2544 and amendment B.E. 2551. This law allows documents stored in the electronic form to be considered original, many businesses still see the importance of storing their documents physically, because the physical originals can be used in legal processes without having to go through the originality and completeness verifications as would be the case for electronic originals (cited from the notification of the Office of the Electronic Transactions Commission, regarding the guidelines for the construction or converting documents in electronic forms B.E. 2553). Companies do so to reduce the risk that electronic documents may not be usable in litigations, the risk of not being able to verify the electronic documents, such as signatures and company seals, and the risk that electronic documents may be altered in the case of insufficient security measure, as well as the risk of constantly changing technology which may make document recovery become difficult in the future.

4.1.2 Risks from natural disasters, accidents and sabotage

Despite likelihood of natural disasters, accidents, sabotage and other force majeure circumstances happening infrequently, but the occurrence in the real estate location of the REIT may cause damage to assets of the REIT and property of the tenants using document storage service. Although the REIT's assets are insured by covering damage from disasters (excluding terrorism), business interruption insurance and insurance for the benefit of third parties adequately and appropriately pursuant to the rules of relevant laws all the time, but the construction of new real estate or repairing the parts heavily damaged may involve a high

cost burden and it take a long time to deal with such matters. This may cause REIT to lose significant revenue throughout that period with impact on the operating results and financial status of the REIT.

4.1.3 Risk of expropriation of property of the REIT's investment in all or significant parts under the land expropriation law, making the REIT unable to utilize the property and potentially affecting the business profits of the REIT

At present, it does not appear that there is expropriation of property of the REIT's investment in whole or significant parts. However, in case of future expropriation of the land and building property whether in whole or in significant parts, the REIT will perform various actions so as to receive compensation according to the amount, rules and procedures prescribed by the Act on Expropriation of Real Estate B.E. 2530 (including additional amendments and other relevant laws) ("Expropriation Law").

In that case, the REIT may not receive compensation under the expropriation law because of inconsistency with the conditions stipulated by such law or REIT may receive compensation in the amount less than (A) remuneration for investing in the property of the REIT's investment and /or (B) the cost of missing benefits expected by the REIT to receive from the property of the REIT's investment, which will have a significant impact on the business, operating results and financial status of the REIT such as possibly causing the REIT to be unable to utilize such property according to investment objectives and significant changes in the income expected by the REIT to receive.

4.1.4 Risk from economic fluctuations with potential impact on the business profits of real estate in which the REIT has invested

Real estate of the REIT's investment includes the risk of fluctuations in the economy and may be affected by changes in the overall economy. Moreover, such real estate may be affected by changes from other macro factors, e.g. political factors, city planning, changes in population structure, being affected by natural disasters, epidemics as well as domestic unrest, etc.

4.1.5 Risk from higher competition

The REIT's business profits may be affected by the increased number of operators in the market. Having the number of operators providing document storage rental service in the vicinity of the location of the REIT's property leads to increased market supply, higher competition until possibly affecting the operations and financial status of the REIT.

However, the document storage service business includes quite high barriers to entry of new competitors (barrier to entry) because this business requires specialized skill, expertise in document storage management and depends on the advantage of space for use as document

storage. Therefore, there is currently no entry of new operators with no accumulated land into the document storage service industry. As a result, the new competitors to enter the document storage business are quite limited.

4.1.6 Risks in case of need to improve, repair the property of the REIT's investment

Annual improvement or maintenance or inspection and repair of property in normal circumstances, including improvement or maintenance and repair of property due to natural deterioration, increased use duration of property will not affect the renting out of document storage building space because the REIT has required the tenants to repair, maintain at the tenants' expense.

Additionally, such risks remain limited because the REIT still has the right to enforce rental guarantee in case of the tenants' failure to keep the property in perfect condition, ready to use. Besides, the REIT will closely monitor the results of the building inspection to be able to solve problems quickly in case of anomalies happening to the REIT's property.

However, the case of the document storage building and other assets rented out by the REIT damaged by disasters in whole or in some significant parts, which causes the tenants to be unable to utilize the document storage building and other assets leased from the REIT, may significantly affect the business, operating results and financial status of the REIT. However, in the event of damage from disasters in whole or in part, the REIT will use indemnity to repair the leased property from non-life insurance in the sufficient and appropriate amount. Furthermore, the REIT has also arranged for business interruption insurance in order for the REIT to receive indemnity for spending in the period of improving, repairing the property. In addition, the REIT may consider reserving expenses for repair or improvement in advance.

4.1.7 Risk from relying on the property tenant mainly

Sub Sri Thai Public Company Limited is a contracted tenant of the REIT's property to operate document storage business, which has a small number of operators. Moreover, the document storage property is unique, must rely on the reputation and experience accumulated for a long time, together with service and expertise in document storage management to be able to provide document storage business service fully and reliably for document-depositing customers like Sub Sri Thai Public Company Limited has operated. Because of such restrictions, so the REIT must rely on Sub Sri Thai Public Company Limited as property tenant for management to obtain the benefits mainly. The refusal of Sub Sri Thai Public Company Limited to lease the property or continue to manage the property may have a significant impact on the business, operating results and financial status of the REIT.

However, the REIT has a long-term lease agreement of approximately 10 years and 1 month with Sub Sri Thai Public Company Limited to reduce such risk. Besides, upon the approach of the lease's expiry, the REIT manager will negotiate with the tenant to consider

renewing the lease in advance. In case of the REIT's inability to agree to the terms of the lease renewal, the REIT manager will search for a new tenant who operates document storage business or similar business with the ability to use the REIT's property to obtain the benefits effectively. The renewal of the lease or the selection of a new tenant will be based on the interests of unitholders essentially.

4.1.8 Risk related to dependence on technology in document storage

Because the document storage No. 52 is equipped with automatic document storage equipment of high value and using specialized technology, it is necessary to rely on people well knowledgeable and expert in machine maintenance for the maintenance and use of machine. The lack of knowledgeable people for machine control or machine maintenance may cause the document storage to be unable to operate normally.

However, the REIT has required the tenant to be responsible for maintenance, repair of property throughout the rental period at the tenant's expense. The tenant agrees to maintain, repair the leased property to be in neat condition suitable for use.

Additionally, in case that document storage equipment is defective or damaged actually, which is not damage caused by disasters entirely, the likelihood of the REIT losing revenue from providing space service will remain in low level because the REIT will still receive the normal rents.

4.1.9 Risks related to dependence on easement for property entry/exit

Entry/exit of the REIT's property must pass the land of Sub Sri Thai Public Company Limited ("SST") and personal land owned by natural person. Sub Sri Thai Public Company Limited and the owner of such personal land have registered easement for the land of the REIT's investment regarding walkways, car roads and utilities around the REIT's property. Failure of SST and / or the owner of such personal land to take care of this land property to be in suitable condition ready to use as the entrance, exit of the project or making changes to the utilization model of this easement land may result in obstacles to the transport of document boxes for keeping in the storage building of the REIT, which may cause the REIT's property to lose the opportunity to generate income fully. Moreover, if the REIT decides to sell the property of this project in the future, people interested to buy may consider reducing the purchase price because the REIT's property cannot be connected to public ways directly.

However, the agreement requires SST, owner of such easement land not to change the utilization of easement land unless mutual approval between SST and the REIT is given. Additionally, Sub Sri Thai Public Company Limited agrees to look after, repair and maintain the easement land to be in good condition so that the REIT will use this easement land to enter-exit the REIT's property appropriately. Furthermore, if the REIT decides to sell the project's property in the future, such easement will be attached to the property to be sold by the REIT

to the new owner according to the law. Therefore, the new owner can use this easement land to enter, exit the property legally.

4.1.10 Real estate owned by the REIT may have expenses related to real estate as well as increasing in the cost of operations

Ability to pay benefits to unitholders may be affected if the expenses related to real estate and other operating expenses increase. The rental income does not increase or increase at a lesser rate which will affect the total rental income that the REIT will receive according to the rental income structure as defined in the lease agreement.

The Factors that may result in higher expenses related to real estate and operating expenses are

- Increasing in taxes related to real estate including other legal fees
- Changes to laws, rules, regulations and government policies that will increase the cost of complying with laws, rules, regulations and policies that have been changed.
- Increasing in service fees for various service providers
- Increasing in inflation rate
- Increasing in interest rates
- Damage or deteriorate of the properties which needs to be recondition which requires the cost of operation and the cost of doing this part has been not expected.
- Increasing in other operating expenses related to real estate and the provision of REIT benefits

4.2 Risks related to operations and structure of SSTRIT

4.2.1 Risk from property defects that may not be found or cannot be checked by information inspection before investment

Before investment in real estate, REIT manager has studied the detailed information of that real estate by checking relevant documents (Due Diligence), including property valuation report, report of legal status examination of property by legal counsel and the report of building and building accessories inspection, etc. However, this operation does not guarantee that such real estate is free from damage or defects, which may require improvement or repair expenses. The report of property valuation, the report of legal status examination of property by legal counsel and the report of building and building accessories inspection used by REIT manager as a basis for evaluating and inspecting real estate may be defective, have inaccuracies because some faults of real estate may be difficult to detect or cannot be detected due to

inspection limitations and inspection techniques or other factors as inspection limitations of both the valuation company and the engineer.

4.2.2 Risk from Changes of Accounting Standard and Relevant Laws

The REIT's operating performance and dividend distribution may be affected by the enforcement of new accounting standards or revised accounting standards. This is the factor that the REIT cannot control or predict for the amendments to the laws, notifications, regulations, rules, policies and/or government officials' orders or any authorized legal entities that is consider unpredictable. Thus, the REIT is not able to evaluate the impact of such changes and guarantee that such changes will not affect the operation and dividend distribution of the REIT.

4.2.3 Risk from Taxes and Fees

In the future, the REIT may purchase, sale, transfer or receive of the freehold right or the leasehold right (in the case that the REIT invests in leasehold right of the immovable properties) in the immovable properties, where the REIT could incur taxes and fees arising from the purchase, sale, transfer or receive. The REIT may be subject to pay such taxes and fees in full or partial amount at the rates that could be differ from the current rates.

In addition, in the future, the tax burden of the REIT and / or the unitholders' tax burden in connection with the investment and / or trading of trust units. And receiving dividends from the REIT May change from the current rate If there is a change in tax laws and regulations or other relevant areas

4.2.4 Risk of SSTRT's concentrated investment when compared to REIT and the mutual fund of other types

The necessity for REIT to invest in real estate not less than 75 percent of the trust unit value of requested permission for offering to sell, including the amount of loans (if any) causes investment to be concentrated in real estate meanwhile REIT and / or mutual fund of other types may have a policy to diversify investment in financial instruments of various types.

4.2.5 Risk from the ability to pay the rents of the property tenant

The rents to be received by REIT from the tenant under the lease will be the only source of main income of REIT. Therefore, REIT may have a risk from the financial status and the ability to pay the rents of the tenant. Such tenant's financial problems with impact on the ability to pay the rents, failure to pay the rents or premature termination of the lease and REIT's inability to find a new tenant to replace this tenant may directly affect the income of REIT.

4.2.6 Risk of REIT's possibility of not receiving rental income or reduced rental income after expiry of the lease

Upon expiry of the lease term, REIT may be at risk of not receiving rental income or receiving reduced rents from the tenant. Therefore, the unitholders may be affected due to possibly reduced returns that the unitholders receive.

However, REIT may find a new replacement tenant. REIT may take time to find another person to be a new contract party of the lease for continuing to rent the leased property. This person may not have the same qualifications or abilities as the original tenant and / or may not agree to the favorable rental conditions comparable to the current lease.

4.2.7 Risks from finding a new tenant

Upon expiry of the lease term, REIT may be at risk of not renewing the lease with the current tenant and need to find a new replacement tenant. REIT may take time to find a new tenant and REIT may not receive rental income while searching for a new tenant. Moreover, if REIT can find a new replacement tenant, SSTRT may have a risk that the rents of the new contract will be reduced, including the risk of the new tenant's ability to pay the rents of the contract, which may cause returns of the unitholders to be reduced.

4.2.8 Risk from changing the model of the lease after expiry of the lease

Upon expiry of the lease term, REIT may be at risk of not being able to renew the lease with the tenant in the form of fixed rents. Changes in the rents received partly in the form of rents varying with the operating results of the tenant's document storage may cause conflict of interests from the tenant's management if the tenant has many document storage warehouse and the tenant does not rent all those document storehouses from REIT. As a result, the unitholders may be affected because returns received by the unitholders may be reduced. However, REIT can supervise and require the tenant to set up a good management system so as to prevent potential conflict of interests.

4.2.9 Risks associated with insurance

REIT's business operation includes the risks from operation and utilization of the property of REIT's investment because REIT must have the property of REIT's investment insured sufficiently and suitably in accordance with the relevant laws. However, REIT may not be able to take out insurance that covers some types of potential risks such as loss from war or terrorism, etc. (Or even if REIT can provide insurance, but the insurance premium rate may not be worth the economic benefits that REIT may receive). Or REIT may not be able to use the claims as specified in the relevant insurance policies, whether in whole or in part or there may be a delay in compensation for damage according to such insurance policies without the fault of REIT.

REIT may be at risk from financial losses in case of serious incidents that REIT may not receive adequate compensation for damage or is unable to provide such type of insurance. This may directly affect returns expected by the unitholders to receive.

4.2.10 Risk from the contract parties' incompliance with the contracts

For REIT's investment and real estate management, REIT has received the transfer of the lease, contracts and contracts related to investment and property management of SSTSS for seeking the benefits of REIT and binding the contract parties to comply with the terms of such contracts.

However, despite the provisions of the contracts, the contract parties may breach the contracts or any incidents occur, which cause termination or breach of contracts. In such cases, despite REIT's rights to terminate the contracts, claim damages and claim the cost of missing benefits and / or the rents paid (as the case may be), but the cases of breaches of contracts by the contract parties cause REIT to possibly not receive the benefits or enforce compliance with the said contracts such as the inability to enforce the rights of SSTRIT according to the terms or the contract parties' failure to pay damages as claimed by REIT. Therefore, REIT may need to bring such cases into justice process by prosecuting in court. For such action, REIT cannot anticipate the duration of operation and the amount of compensation that REIT will receive for various damages. In addition, the outcomes of the cases depend on the court's judgment. Despite the court's judgment for REIT to win the cases, REIT may encounter difficulties in enforcing compliance with the court's judgment. Therefore, the trust unitholders are at risk of not receiving returns according to the amount or within the period expected.

4.2.11 Potential risk from loans

If REIT takes out the loans according to the stipulated rules, REIT may be at risk from such loans due to changes in economic conditions and increased interest rates, which may affect the operations of REIT, causing REIT to have insufficient liquidity. Furthermore, REIT may be at risk of having the reduced ability to repay the principal and interest, which may also affect the ability to pay returns to the trust unitholders. REIT will attempt to take any action to manage such risk, e.g. preventing the risk from interest rate fluctuations or requesting extension of debt repayment period, etc. However, any such action will be taken by REIT by taking into account the benefits of trust unitholders primarily.

4.2.12 Risk from part of SSTRT's business profits depending on SSTRT manager's abilities to manage and seek the benefits from the property of SSTRT's investment

REIT manager will determine the policies on operations, seeking the benefits and strategies for managing the REIT as specified in the trust establishment agreement, including other relevant contracts. The performance of duties of REIT manager will be under supervision of the trustee and accords with the trust establishment agreement and related laws.

The abilities of REIT manager to implement REIT's investment strategy successfully depend on several uncertain factors, including the capacity to seek suitable investment opportunities and in consistency with the investment rules of REIT as well as receiving good financial conditions. Therefore, REIT manager cannot guarantee that the implementation of investment strategy of REIT manager in reality will be as planned or can be done within the appropriate time and cost. REIT manager's inability to implement the strategy successfully may affect the value of major assets of REIT, which will affect the operating results of REIT and payment of returns to trust unitholders.

4.3 Risk Relating to Investment in Trust Units of the REIT

4.3.1 General risk

The economic and business condition, both nationally and globally, includes the inflation rate, interest rate, foreign exchange rate, consumer goods price, immovable property's price and the monetary and fiscal policies of the Government, Bank of Thailand and other government agencies may have an impact on the operating performance, financial position and investment of the REIT. Moreover, the economic recession including the decrease in demand of the consumers may have a negative impact to the REIT's operating performance. This may affect the trading price of the REIT in the Stock Exchange of Thailand which may be higher or lower than the offered price.

In addition, the price of the trust units that are traded in the Stock Exchange of Thailand may be affected by external factors which cannot be control by the REIT Manager such as the movement or changes in the stock exchange in the country and abroad, foreign exchange rates, policies or measures directly or indirectly affecting import or export, tourism industry's condition, foreign currencies, economic condition in the domestic and international, risk factors relating to the normal operation and business, fluctuation in the consumer goods market, regulations, tax duties and other government policies. There is no guarantee that the changes in the external factors will not have a significant impact on the price of the trust units, return from investment and the management of the immovable properties of the REIT.

4.3.2 Political risk

The occurrence of political unrest or conflicts may affect the economic conditions of Thailand as well as the stock market in Thailand and may cause a severe impact on the financial status of REIT. Thus, it cannot be confirmed that the current or future political situations in Thailand or the changes of the government's political policies will not have a serious impact on business operations, financial condition, operational results and the growth of REIT.

4.3.3 Possible change of the trust unit price after offering to sell

After listing the trust units of REIT in the Stock Exchange, it is not certain that the trading conditions of trust units in the stock market will be stable. The market price of trust units may be reduced after listing the trust units in the stock market and may not be consistent with the trust unit value of REIT. The trading price of trust units depends on many factors such as the performance of REIT, securities fluctuations in the stock market and trading volume of trust units, etc. Therefore, the investors may not be able to sell trust units at the price of offering to sell trust units or at the price according to the net asset value per unit of REIT.

4.3.4 REIT's Net Asset Value May Not Be the Actual Value That the REIT Shall Receive from The Asset Disposal or Termination of REIT

The REIT's net asset value is calculated using information from the asset appraisal report. Therefore, in the event that the REIT is required to dispose of the properties either for restructuring purposes or for dissolution purposes, the value may not be the real value that the REIT will receive if all or part of the property is sold or the REIT is terminated

4.3.5 Risk of Liquidity Inadequacy in Trust Unit's Trading Activities in Secondary Market

As the type of the REIT is unitholders have no right to sell back or redeem unit trust and the trust units are listed on the stock exchange of Thailand, the trading liquidity is measured by the frequency and trade volume of the trust units in the stock exchange. This is based on the bid-offer volume which depends on several factors that cannot be control by the REIT Manager such as the market demand of the trust units. Therefore, there is a risk that the REIT will lack the liquidity in trading on the secondary market.

4.3.6 Risk from Distribution Payment to Trust Unitholders

The distribution payment of the REIT is determined based on the performance of the REIT which depends on several factors such as the economic condition of the domestic and foreign countries, the competency of the lessee, the cost of managing the immovable properties, the operating expenses, the competition among operators, the change in laws and regulations relating to the assets, the natural disaster and political situation. Therefore, the investors are exposed to the risk of not receiving the distribution payment as projected or the REIT is unable to make such distribution payment or increase the distribution payment in the following years.

4.3.7 Risk Resulting from Determining the Trading Price of Trust Unit Based on Net Asset Value (NAV) of the REIT

The calculation of the Net Asset Value (NAV) of the REIT that the REIT Manager reports is calculated by using the latest report of value appraisal or reviewed report of value appraisal as a basis for determining the immovable properties value. The NAV as mentioned may not be the market value that is trading in the stock exchange as the market value depends on other factors as well such as the demand and supply of the securities, foreign investors fund inflow, etc.

The REIT Manager has disclosed information in this annual report in compliance with the Office of SEC's regulations and is precautionous with the statements and does not cause any mislead. Moreover, there is no reasons to think that there is information that may affect the decision of the investor who has not been disclosed yet.

4.3.8 In case of REIT's dissolution, payback from the dissolution of REIT may be less than the amount invested by trust unitholders.

In case of REIT's dissolution, REIT's founder cannot guarantee that the trust unitholders will receive their investments back whether in whole or in part. This depends on the causes, methods of dissolving REIT and the rules for selling the assets of REIT.

4.3.9 The value of real estate of REIT's investment according to valuation by the valuation company does not represent the real value of immovable property and cannot guarantee that the selling price of that real estate will be as appraised whether at present or in the future.

In general, real estate valuation will be determined by various factors, including some abstract factors related to that property such as marketing status, financial strength, competitive ability and the condition of property. There may be circumstances that make such factors change in the future because some circumstances or all circumstances as assumptions may not occur as expected or the unexpected circumstances or situations may occur. Thus, REIT manager cannot guarantee that the set assumptions will occur as expected. So, the price that REIT will sell the main assets of future investment may be lower than the value determined by the valuation company or lower than the price of REIT's investment in such real estate, resulting in REIT's loss from investment in real estate, which will affect the ability of REIT to pay returns to trust unitholders.

4.3.10 Additional risks due to the issuance and offering to sell of more trust units

Apart from the abovementioned risk factors related to the property of REIT's investment and the offering to sell of trust units, in case of additional investment, the price of additional trust units issued and offered to sell to investors may be equal to or higher or lower than the net asset value per trust unit at that time. The offer to sell additional trust units at a price lower than the net asset value per trust unit at that time may cause the Net Asset Value per Unit to decrease.

financial statements projections at the expense incurred. The amount was less than the estimate, approximately Baht 2.53 million. The estimated net investment income was less than the actual investment income. Since the REIT has repaid the loan. The first capital increase is faster than the projected summary of operating results with the virtual financial statements. There were no significant differences.

14.2 Factors or circumstances with potentially significant impact on the financial status or operations in the future (Forward Looking)

Thai economy in 2020 has expanded by 6.1 percent, compared to 2.4 percent in 2019, and the Thai economy in 2021 is expected to expand by 2.5 - 3.5 percent. Expanding the Thai economy as follows

1. Trends of economic recovery and world trade volumes
2. Driving by government spending
3. The return of domestic private demand expansion
4. Adaptation to an unusually low expansion in 2020

Economic policy management in 2021 should focus on

1. Epidemic control and prevention of resurgence in the country
2. Maintaining the political climate in the country
3. Taking care of the economic sector that still has limited recovery Especially in the tourism and related administrative sectors, the recovery is still limited by international travel control measures. Including considering additional measures for the rest of the small and medium business sectors
4. Maintaining a driving force for economic growth from public spending and investment
5. Driving product exports to generate foreign currency income
6. Investment promotion during the years 2018 - 2020 for real investment.
7. Preparing for exposure to foreign tourists
8. Preparing measures to cope with the risks arising from the disaster situation and taking care of farmers' income
9. Monitoring and preparing for risks from fluctuations in the global economic and financial system that is still high and may affect the Thai economy in addition to the focus on maintaining economic stability.

As mentioned above, are all factors that will cause the Thai economy to expand or as expected.

One Asset Management Limited
 Acting as the Trustee of Sub Sri Thai Real Estate Investment Trust

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of Sub Sri Thai Real Estate Investment Trust

Opinion

I have audited the financial statements of Sub Sri Thai Real Estate Investment Trust (“the Trust”), which comprise the statement of financial position and the details of investments as at 31 December 2020, and the statement of comprehensive income, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Trust as at 31 December 2020, and its financial performance, changes in its net assets and cash flows for the year then ended in accordance with accounting guidance for Property Fund, Real Estate Investment Trust, Infrastructure Fund and Infrastructure Trust for investment companies as stipulated by Association of Investment Management Companies and endorsed by the Securities and Exchange Commission.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Trust in accordance with the Federation of Accounting Professions under the Royal Patronage of his Majesty the King’s Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Measurement of Investments in Properties

As discussed in Note 6 to the financial statements, as at 31 December 2020, the Trust had the investments in properties in the amount of Baht 1,430.44 million. The fair value of such investments was a key audit matter, due to the REIT manager therefore determined the fair value of these investments based on the value appraised by an independent appraiser. As the REIT manager is required

to exercise significant judgement with respect to the estimation of future operating results and the determination of a discount rate and key assumptions, there is therefore significant risk with respect to the measurement of such investments.

Key audit procedures

I gained an understanding and evaluating the basis upon which the Trust identified and assessed the fair value of investments in properties. I also assessed the competence and independence of the independent appraiser. In addition, I reviewed the data and key assumptions used in the measurement of fair value, by comparing them against historical data, considering the reasonableness of significant movement in the property valuation from the prior year, checked them to the lease agreements, and recalculation of the fair value models.

And I reviewed disclosure the disclosure of information related to the measurement of the fair value of investments in properties, its adequacy and conformity to the requirements of accounting guidance for property fund, real estate investment trust, infrastructure fund and infrastructure trust for investment companies as stipulated by Association of Investment Management Companies with approval from the Thai Securities and Exchange Commission.

Other Information

The REIT manager is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to the REIT manager for correction of the misstatement.

Responsibilities of the REIT manager for the Financial Statements

The REIT manager is responsible for the preparation and fair presentation of the financial statements in accounting guidance for property fund, real estate investment trust, infrastructure fund and infrastructure trust for investment companies as stipulated by Association of Investment Management Companies with approval from the Thai Securities and Exchange Commission., and for

such internal control as the REIT manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the REIT manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless REIT manager either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Trust's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the REIT manager.
- Conclude on the appropriateness of the REIT manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial

statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the REIT manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the REIT manager with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with REIT manager, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. DISTRIBUTION POLICY

The Trust has a policy to pay distributions to unitholders as follows:

2.1. The REIT Manager shall pay distributions to the Trust's unitholders that, in aggregate, amount to not less than 90% of adjusted net profit for the accounting period, with such distributions to be divided into a year-end distribution and an interim distribution (if any). The REIT Manager shall pay distributions to unitholders not more than 4 distributions in an accounting period, unless the Trust increases capital.

The adjusted net profit means profits which are adjusted by the followings:

- 1) Deduction of unrealized gain from the value appraisal or review of the Trust's asset value appraisal, including adjustment by other items under the guidelines of the Office of the Securities and Exchange Commission of Thailand in accordance with the Trust's cash status.
- 2) Deduction by reserve for loan repayment or encumbrances from borrowings by the Trust.

2.2. In case the Trust has retained earnings in any accounting period, the REIT Manager may pay the distributions to the Trust's unitholders from the retained earnings.

2.3. In case the Trust has accumulated losses remaining, the REIT Manager will not pay distributions to the Trust's unitholders.

In considering the payment of interim distribution, if the value of interim distribution per unit to be paid is lower than or equal to Baht 0.10, the REIT Manager reserves the right not to pay distribution at that time and to bring such distribution forward for payment together with the next distribution payment.

3. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements has been prepared in accordance with accounting guidelines for the Property Fund, Real Estate Investment Trust, Infrastructure Fund and Infrastructure Trust established by the Association of Investment Management Companies and endorsed by the Securities and Exchange Commission, Thailand ("Accounting Guidelines"), while for those matters not covered by the Accounting Guidance, the entity is to follow the financial reporting standards

issued by the Federation of Accounting Professions Under the Royal Patronage of His Majesty the King (“TFAC”) that are effective in that financial reporting period.

The prior financial statements, the Trust prepared its financial statements in accordance with the basis and format specified in Accounting Standard No.106 “Accounting for Investment Business”.

An English version of the financial Statement has been prepared from the statutory financial statements that are in Thai language. In the event of a conflict or a difference in interpretation between the two languages, the Thai language statutory financial statements shall prevail.

4. NEW FINANCIAL REPORTING STANDARDS

4.1. Financial Reporting Standards that Became Effective in the Current Period

The Trust has adopted the revised (revised 2019) and new financial reporting standards and accounting treatment guidance issued by the TFAC which become effective for fiscal periods beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Trust’s financial statements. Except these new standards involve changes to key principles, which are summarized below.

TFRS - Financial instruments standards

TFRS - Financial instruments standards, consists of five accounting standards and interpretations, as follows:

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments
TAS 32	Financial Instruments: Presentation
TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRS establish requirements related to definition, recognition, measurement, impairment and derecognition of financial assets and financial liabilities, including accounting for derivatives and hedge accounting.

The adoption of these financial reporting standards does not have any significant impact on the Trust's financial statements.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles to those used under TAS 17.

The adoption of these financial reporting standards does not have any significant impact on the Trust's financial statements.

Accounting Guidance on temporary exemption guidance for additional accounting options to relieve the impact from Coronavirus Disease 2019 Pandemic ("COVID-19")

This accounting guidance has allowed temporary exemption guidance for additional accounting options for reduce impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation. The Trust has chosen not to take into account the information related to COVID-19 in its financial projections for the purpose of fair value measurements of investments in properties for the reporting periods ending between 1 January 2020 and 31 December 2020

From 1 January 2020, the Trust has ceased to practice temporary exemption guidance from Accounting Guidance on temporary exemption guidance for additional accounting options to relieve the impact from Coronavirus Disease 2019 Pandemic which ended on 31 December 2020. However, the termination of the temporary relief under this accounting practice does not have any material impact on the Trust's financial statements.

4.2. Changes in Accounting Policies
